

HouseMaster: Home Inspectors Helping Build Houses

The MORE Project is a non-profit organization focused on providing children, adults and their families who live in severe poverty with the resources to help them change their lives. The contributions of HouseMaster will specifically help to build and re-build the homes of families in the impoverished areas of Brazil. These homes are constructed very poorly and left unattended can create very dangerous and unhealthy living environments.

HouseMaster would like to thank the following Real Estate Firms and service providers for their assistance in raising money to help build homes in cooperation with the MORE Project .
